

Tabella1

The diagram is a large grid with 'X' marks forming a complex, symmetrical pattern. The pattern is composed of several interconnected shapes, including a large central structure and smaller clusters. The 'X' marks are arranged in a way that creates a sense of depth and complexity, with many overlapping and adjacent shapes. The overall appearance is that of a technical drawing or a mathematical proof, possibly related to a specific problem in geometry or combinatorics. The grid is 30 columns wide and 40 rows high. The 'X' marks are distributed across the grid, with a higher density in the central and lower-right areas. The pattern is highly detailed, with many small 'X' marks forming the outlines and internal structures of the larger shapes.

Tabella1

The image displays a large grid, approximately 40 columns wide and 100 rows high. The grid is populated with 'X' marks in a complex, abstract pattern. The pattern is roughly centered and has a jagged, irregular shape. It consists of several distinct regions of 'X's, some of which are connected to form larger shapes, while others are isolated. The overall appearance is that of a sparse, high-contrast binary image or a complex data visualization. The 'X' marks are distributed across the grid in a way that suggests a specific underlying structure or algorithm, though the exact nature of this structure is not immediately apparent from the visual representation alone.

Tabella1

The image shows a 30x40 grid with 'X' marks forming a complex, abstract shape. The shape is roughly rectangular with a large central void and several smaller internal voids. The 'X' marks are arranged in a pattern that suggests a stylized letter or a specific symbol. The grid is 30 columns wide and 40 rows high.
